FTP Procedure - Data Transmission

You can send to and receive from – Juniper Engineering Solutions, Data files as below –

1) Via E-mail (File Size – No Limit). E-mail Link: designs@juniperengg.com

2) Via FTP connection

   2.1)   To send and receive files via FTP, you must first obtain 'User Name' and 'Password' from us. Please e-mail your request for the same to ravikumar@juniperengg.com or call+91-8050952227

   2.2)   On your computer, go to ftp.juniperengg.com. A 'User Name' and 'Password' window will pop up.

   2.3)   Please enter the User Name and Password provided by us.

   2.4)   You will be taken to a screen that has two folders. While one is for 'dropping off' files to us, the other one is for 'picking up' completed files from us.

   2.5)   You can 'drag and drop' or 'cut and paste' files to these folders.

   2.6)   Files to be sent to us can be put in 'drop off' folder.

   2.7)   Files to be picked up by you will be in 'pick up' folder.

Company exchanging data with Juniper Engineering Solutions has a private link which is not shared with anyone except you.
